HP SOFTWARE SUPPORT SERVICES
Statement of Work/Specifications/Description
For Hewlett Packard Software Support Services

C.1 REQUIREMENTS

C.1.1 For the period between October 2004 through September 2009, software support services are required at three US Navy AEGIS support sites: Integrated Warfare Systems Laboratory in Dahlgren VA, AEGIS Training and Readiness Center in Dahlgren VA, and Surface Combat System Center in Wallops Island VA. Each site operates Hewlett-Packard Company (HP) previously known as Compaq Federal, LLC (Compaq) previously known as Digital Equipment Corporation (Digital) computer systems running HP/Compaq/Digital operating systems and layered software products. This Statement of Work describes the required software support services that include software maintenance updates, documentation updates, and telephonic technical support.

C.2 DESCRIPTION OF SOFTWARE

C.2.1 A list of the software products requiring software support services is listed in attachment (1). The Government understands that HP will only support the current and the previous version of its software.

C.3 DESCRIPTION OF SERVICES

C.3.1 <u>Software Updates Support</u>. In accordance with the applicable contractor specific software model numbers contained in attachment (1), the contractor shall provide software updates which fix known software problems and which enhance the features of the software products. The contractor shall provide software updates to each of the AEGIS support sites within fifteen (15) days of the first customer shipment by the contractor. All software updates shall be backward compatible with existing software. In accordance with contractor specific software model numbers, telephonic technical support, software updates, and software documentation update support shall be continued for the updated software products.

C.3.2 <u>Software Documentation Update Support</u>. In accordance with the applicable HP/Compaq/Digital specific software model numbers contained in attachment (1), the contractor shall provide software updates which fix known software problems and which enhance the features of the software products. The contractor shall provide the latest software documentation updates to support existing software.

C.3.3 <u>Telephone Technical Support.</u> The Government requires telephonic technical support 24 hours per day, seven days per week. The purpose of this telephone support is to resolve any technical problems such as software installation or software performance.

C.4 GOVERNMENT MATERIALS AND PROGRAMS PRODUCED

All Government programs, documentation, and printouts generated utilizing the systems and software products identified in Section B shall remain Government property. These Government materials and programs may not be released without prior Government written permission.

C.5 ADDITIONS AND DELETIONS

C.5.1 The Government may cancel any software support being performed under this contract by giving 30 days (or less, if agreed to by the Contractor) prior written notice to the Contractor.

C.5.2 Any additions or deletions to the software covered under this contract will be made by a written contract modification issued by the Contracting Officer.

C.5.3 Should the Government make substitutions or install additional software items on the computer systems listed in Section B, software support may be extended, at the Government's option, to include the new software items. The Government may not, however, exceed a contract value of $4M.

C.5.4 The fixed monthly charge for any items added to the contract shall be prorated for the number of months that support is actually provided for that item.

C.5.5 Items may be added to the contract. In the event an item is identical or equivalent in description and part number to an item currently under contact, the new item shall be provided for the same fixed price as the identical or equivalent item already under contract.

C.5.6 Items added which are not identical or equivalent to items already on the contract shall be negotiated at the same rate of discount from commercial prices as for similar equipment under the contract.

C.6 AVAILABILITY OF CONTRACTOR SOFTWARE SUPPORT SERVICE

In the event that HP plans to retire and/or replace a software product contained in this contract, the contractor will provide the Contracting Officer with thirty (30) days prior written notice. If the software product is retired by the contractor with no replacement, HP will indicate the duration that HP will continue the software support services for the retired software. The Contracting Officer shall have the option of continuing the software support services for the retired software for the period offered by HP. If HP offers a replacement software product for the retired item, the Government has the option of adding the replacement software in accordance with Section C.5 above.

52.212-1   INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (JAN 2004)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show--

(1) The solicitation number;

(2) The time specified in the solicitation for receipt of offers;

(3) The name, address, and telephone number of the offeror;

(4) A technical description and explanation of the items provided. Each proposal shall provide sufficient detail to demonstrate the company's technical capability to fulfill the requirement and describe how such services were rendered in the past. Additionally, provide a synopsis of the different support levels and the services provided under each support level. All software support services must be from HP. All third (3rd) party offerors (any company other than HP) must be authorized by HP to provide these services.

List of Part #'s and pricing information for ordering prior-version support.

Because the Government may not always have the option of using the current or previous versions of HP/Compaq/Digital software, "prior-version" support may be required. State if this is available and what coverage is provided for these items. (telephone support, software updates, documentation updates).

Attachment (1) provides the item description, support level, OS version, part #, prior part #, quantity, and columns for the monthly price to be filled in. Serial numbers are provided for individual machines requiring support where required. The government requires these prior versions anywhere those support numbers appear. Acknowledgement of this requirement must be indicated in every proposal.

(5) Terms of any express warranty;

(6) Propose monthly pricing in the format of Attachment (1). Each site is individually identified in the CLIN structures of section B. Propose the cumulative price per site in Section B.

Identify any discount terms. Provide a Commercial Price Listing. Should any of the items be carried under GSA schedule, provide the schedule with all items properly highlighted or otherwise indicated. Provide full details and methodology involving price computations.

Example: For new software support (updates, documentation, etc.) that may be added during the life of the contract, Your Company will apply at least a X% discount to our published rates.

(7) "Remit to" address, if different than mailing address;

(8) A completed copy of the representations and certifications at FAR 52.212-3, and DFAR 252.212-7000.

(9) Acknowledgment of Solicitation Amendments;

(10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information).

For evaluation purposes, recent and relevant means contracts of similar size and complexity within the past two (2) years. Same or similar should be interpreted as being like or identical software support services.

Each offeror shall provide a list of whom Attachment (2) was sent to. It is the offerors responsibility to ensure that the Past Performance Questionnaire is filled out and returned to the Government for evaluation.

(11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers:

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the

solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation. (1) The Index of Federal Specifications, Standards and Commercial Item Descriptions and the documents listed in it may be obtained from the General Services Administration, Federal Supply Service Bureau, Specifications Section, Suite 8100, 470 L'Enfant Plaza, SW, Washington, DC 20407 ((202) 619-8925).

(2) The DOD Index of Specifications and Standards (DODISS) and documents listed in it may be obtained from the Standardization Documents Desk, Building 4D, 700 Robbins Avenue, Philadelphia, PA 19111-5094 (telephone (215) 697-2569).

(i) Availability of requirements documents cited in the solicitation. (1)(i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, and copies of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained for a fee by submitting a request to--GSA Federal Supply Service Specifications Section, Suite 8100, 470 East L'Enfant Plaza, SW, Washington, DC 20407, Telephone (202) 619-8925, Facsimile (202) 619-8978.

(ii) If the General Services Administration, Department of Agriculture, or Department of Veterans Affairs issued this solicitation, a single copy of specifications, standards, and commercial item descriptions cited in this solicitation may be obtained free of charge by submitting a request to the addressee in paragraph (i)(1)(i) of this provision. Additional copies will be issued for a fee.

(2) The DoD Index of Specifications and Standards (DoDISS) and documents listed in it may be obtained from the-- Department of Defense Single Stock Point (DoDSSP), Building 4, Section D, 700 Robbins Avenue, Philadelphia, PA 19111-5094, Telephone (215) 697-2667/2179, Facsimile (215) 697-1462.

(i) Automatic distribution may be obtained on a subscription basis.

(ii) Order forms, pricing information, and customer support information may be obtained--

(A) By telephone at (215) 697-2667/2179; or

(B) Through the DoDSSP Internet site at http://dodssp.daps.mil.

(3) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) Data Universal Numbering System (DUNS) Number. (Applies to all offers exceeding $25,000, and offers of $25,000 or less if the solicitation requires the Contractor to be registered in the Central Contractor Registration (CCR) database. The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS +4" followed by the DUNS or DUNS +4 number that identifies the offeror's name and address. The DUNS +4 is the DUNS number plus a 4-character suffix that may be assigned at the discretion of the offeror to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR Subpart 32.11) for the same parent concern. If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one. An offeror within the United States may contact Dun and Bradstreet by calling 1-866-705-5711 or via the Internet at http://www.dnb.com. An offeror located outside the United States must contact the local Dun and Bradstreet office for a DUNS number.

(k) Central Contractor Registration. Unless exempted by an addendum to this solicitation, by submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance and through final payment of any contract resulting from this solicitation. If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror. Offerors may obtain information on registration and annual confirmation requirements via the Internet at http://www.ccr.gov or by calling 1-888-227-2423 or 269-961-5757.

(l) Debriefing. If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(3) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award;

(5) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

(6) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities were followed by the agency.

To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the
Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(4) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at http://www.ccr.gov or by calling 1-888-227-2423 or 269-961-5757.
